

Dear Colleague:

Enclosed, please find your copy of the newly published *Directory of Planning Projects and Special Studies* published by the Prince George's County Planning Department.

As Chairman of the Prince George's County Planning Board of the Maryland-National Capital Park and Planning Commission, I am pleased to offer you this comprehensive guide to ongoing and recently completed Planning Department projects. We hope this handbook, which is also accessible through our website at http://www.mncppc.org/cpd/pdfs/Planning_Department_Projects_2007.pdf, will be an easy to use and informative guide to all of our current planning projects and special studies.

With over 30 projects and special studies underway the Planning Department has experienced a dramatic increase in its work program. As an important contributor to and/or partner in this process, we are not only providing you with this information to make you aware of some of the completed projects and special studies that might help support your work program, but also to highlight some of the impending projects which may require your input and implementation. We believe this tool will prove to be helpful in facilitating timely and efficient coordination of these activities with your agency as appropriate.

As the countdown to the successful completion of each project continues, we look forward to collaborating with you and your respective staffs. If you have any questions or requests for additional information, please feel free to contact my office at 301-952-3561. Additionally, if you would like to get more information about a specific project in the Directory, please visit our Planning Department website at <http://www.mncppc.org/pgco/>. I thank you in advance for your participation and support in our planning efforts.

Sincerely,

Samuel J. Parker, Jr., AICP
Chairman, Prince George's County Planning Board
